**REPORT OF THE TRUSTEES
OF
INGALLS MEMORIAL LIBRARY**
For the Year Ending December 31, 1950

Our report for this year is given with considerable pride and satisfaction for the work that has been accomplished.

The money which has been held in reserve for several years, and which came to the Library largely from the sale of band uniforms, has been used to refurnish and redecorate the Young Peoples' Room. The result has been highly pleasing to both children and older people and has attracted a greatly increased number of visitors—for study, for play and for the purpose of selecting books to take home. We take this opportunity to thank Mr. L. L. Stebbins, who assisted by installing and repairing light fixtures at a charge barely above the cost.

The entire Library has been cleaned; several hundred worthless books have been discarded and all stacks have been rearranged to provide easier access to the type of book called for. The Museum has also been changed to show articles we have there to the best advantage and labels have been provided for those animals and birds which have been presented during the past few years.

The north sidewalk, which had become a menace, was removed and the lawn graded and we are particularly grateful to Walter J. Young and Leslie C. Thrasher, who did this work as a service to the Town at so low a price to permit the money available to cover it.

Needless to say, we are extremely pleased with the work Mrs. Gray is doing with children and older students—helping and counseling with school work—teaching the use of encyclopedia and dictionary—assisting the children to select books suited to individual need and pleasure and in general making the Library a source of delight to all. It is our hope, with the completion of the new school building, to increase assistance to both teachers and students.

The Library, especially the Symonds Room, has been open for the use of Town organizations, and the Ladies Vestry Association, Sons of the American Revolution, Tax Payers' association and Civil Defense Committee have met in it. The room was given for the use of townspeople and all committees and small groups are welcome.

We thank all who have assisted us in so many ways and have been so generous with gifts and suggestions.

In making my second annual report as librarian, I wish to state that the last year has been marked with success and accomplishment.

The change in hours was quickly taken advantage of by both teachers and pupils. The children have come to the library in groups each week, and each teacher has brought her class for visits, both to the library and to the museum.

Books have been bought for the high school pupils, including two much needed biographies.

Friends of the library have been most generous in their contributions of books, magazines and picture collections. Books have been given by, Mr. George Coppers, Miss Alice Morgan, Miss Mary Shepherd, Mrs. John Sampson, Mrs. J. K. Emery, Mrs. Arthur Allen, Mrs. Florence Upjohn, Ronnie McInniss and the Garland children.

We have received magazine subscriptions from Miss Eula Ferguson, Mrs. Arthur Allen, Mrs. John Phillips and Mrs. Wallace Coates Jr. Mrs. Coates has also given several of the popular magazines each month as have Prof. D. P. Adams and Miss Alice Morgan.

The support of the library trustees, and the assistance of Miss Danforth is gratefully acknowledged.

Mr. Crowell's interest and co-operation in all the library projects have been much appreciated.

Respectfully submitted,
CARRIE S. GRAY,

Librarian.

B. Administrative Policy

As schools opened in September 1950 the new school building was underway and there was great hope that by the spring term it would be ready for occupancy. In order to plan for as efficient instruction as possible considering the problems of moving during the year it was decided to so assign the pupils as

to permit their continuing through the year with the same teacher. All of the first and second grade pupils in the Center and West areas, 21 of them, were assigned to the West Rindge school; the East Rindge first and second grade pupils and all grade three pupils in the district, 27 in all, were assigned to the East Rindge school, and all pupils in grades 4 through 8 were assigned to the Center school.

PART II. INSTRUCTION

A. Teachers as of January 15, 1951

Teacher	Position	Salary	Enrollment
Mae J. Deschenes	Ctr. Prin, & Gr. 6-8	\$2,400 00	20
Alice E. Hammond	Ctr., Grs. 4-5	2,100 00	18
Bertha S. Parhiala	West, Grs. 1-2	2,300 00	21
Miriam Hunt	East, Grs. 1-3	2,100 00	27
Florence E. Stebbins	Music all schools	335 00	
Robert L. Filbin	Art all schools	242 00	
Ruth S. Langille	School nurse	250 00	

The only change in the teaching staff from last year was the election of Mrs. Parhiala to replace Miss Norcross at the West Rindge school. Mrs. Parhiala graduated from Keene Teachers College in 1950 with a Bachelor of Education degree and had specialized in the primary grades.

During the summer Mrs. Deschenes, Mrs. Hammond, and Mrs. Hunt sought professional improvement in attendance at the Keene Teachers College Extension Course held at Peterborough. The teachers found the course, The Elementary School Curriculum, highly interesting and helpful.

B. PROGRAM AND METHODS

Again this year all teachers and school nurses in the supervisory union spent a full week (Nov. 6-10) of hard work at a workshop planned jointly by the teachers and superintendent. This year two subjects were studied: (a) the unit method of instruction in the elementary school, and (b) guidance in the secondary school. Again the workshop was staffed by the Harvard-Boston University Extension Service. These workshops are proving to be exceedingly helpful to all participants in their search for better understanding of children and better ways of guiding them toward happy, integrated, wholesome living.

SOME FACTS ABOUT YOUR BUDGET

The deficiency appropriation asked for in warrant was caused by unforeseen large increase of pupils in South Rindge and consequent higher tuition and transportation costs. We also had higher costs for transportation and scholars supplies in our own district.

You will find an increase in teacher's salaries which is general in this Supervisory Union.

There is a substantial drop in transportation estimate, from \$5,500.00 to \$3,450.00.

Item No. 23 new equipment is for folding chairs for Memorial School Hall.

So far we have received no notice that State Aid will be allotted this year. If this is granted later it should amount to approximately \$2,750.00.

PART V. REPORT OF THE COOPERATIVE SCHOOL STUDY COMMITTEE

At their annual school district meetings in March, 1950, several towns in the Monadnock Region authorized committees to study the cooperative school situation in conjunction with representatives of other towns. A few towns did not take an official vote but left the appointment of their committees to their school boards. Some towns have had committees of several years standing to study this question.

The first joint meeting of these committees was held at the Jaffrey High School on May 23, 1950. Twenty-six citizens were present representing the towns of Jaffrey, Troy, Marlboro, Dublin, Fitzwilliam, Harrisville and Rindge. A smaller, more workable committee, designated as the Monadnock Regional Cooperative School Study Committee, was subsequently formed, representing all the above towns. Supplementing this citizens committee, Superintendents of Schools Lester B. Badger and Charles L. Bowlby, and Jaffrey Headmaster Robert Lewis have given freely of their time and counsel, which is much appreciated by the committee. Representatives of the State Department of Education have been present at many of our meetings to provide needed guidance and clarification of state policy.

Philip M. Darling of Jaffrey was originally elected chairman of the study committee, being obliged to resign this position on January 1, 1951, due to personal reasons which made it impossible to attend regular meetings, Dr. Samuel E. Paul of Troy was elected to succeed him.

First, let us review briefly the educational problems that face the three towns involved now maintaining separate high schools.

Jaffrey—is confronted with a substantial increase in enrollment and a building that is obsolete, undersized and in need of major repairs.

Troy—has had a 35% increase in school enrollment in the past five years and is expecting an additional 20% increase in the next five years. In September, 1951, two sessions will be necessary to take care of the pupils. An independent building program is under consideration.

Marlboro—has a fundamental problem in its obsolete building for its high school.

Common to all three of the above towns is the problem of operating high schools too small in enrollment. These schools are not big enough to offer a well-rounded program of study. The programs they do offer generally cost more per pupil than comparable programs in larger schools. They have too few teachers to offer the type of curriculum demanded by the complex society faced by today's youth. Their teachers are doing a fine piece of work but are seriously handicapped by the diversity of subjects they must offer. They have to be "Jacks-of-all-trades". Teachers in a larger educational unit would specialize in their chosen subjects and reach maximum effectiveness in instructing our youth. The curriculum in the small high school is generally designed for that small percentage of students who go on to college. The large majority of the students would benefit from the larger school because it would offer a program that better meets its needs.

Included in this program would be such additions as the following which are not now offered in our existing schools:

PHYSICAL EDUCATION—Both men and women teachers would develop a well-rounded physical education program for boys and girls. New equipment would encourage more participation and scholastic and interscholastic teams of high caliber can be developed. Emphasis will be placed upon the proper physical education for girls by qualified women instructors.

INDUSTRIAL ARTS—Metal working, electricity, auto mechanics could be added to our present woodworking courses.

MECHANICAL DRAWING

SEPARATE LABORATORIES FOR SCIENCE COURSES

FIELD TRIPS IN ALL COURSES

BROADER LANGUAGE PROGRAM—to include Spanish and possibly German.

PHYSIOLOGY AND FIRST AID
 BUSINESS LAW
 AERONAUTICS
 PUBLIC SPEAKING AND SPEECH

AGRICULTURE—An approved course in agriculture would be offered. Services of the instructor would be available for home projects, field trips and Future Farmer work. A well-equipped agricultural shop is planned.

GUIDANCE—Because modern schools seriously study the adjustment and aptitudes of pupils with the intention of developing their abilities to the utmost, there will be ample work for the guidance counselors. They will help the pupils to decide what courses fit their abilities and needs and the opportunities open in the fields of their chosen endeavor.

The larger units made possible by a cooperative would provide a greater incentive to work due to the competition among a larger student body. Also, the opportunities for wider companionships and “learning to get along with the other fellow” are valuable assets.

In addition to the regular curriculum of study, the large gymnasium—auditorium would give every student a chance to participate in a physical education program which would include basketball, football, baseball, track and gymnastics.

Every student could belong to some sort of club or activity such as camera, singing, orchestra, band, or dramatics.

Even the adults would benefit from the gymnasium-auditorium and other facilities as the school should be considered as a huge community assembly hall and its full value will be realized when it is used as such. Not to be overlooked are the opportunities for extension courses to be offered adults in helping them improve their station in life and open up new horizons of interest in arts, crafts, and hobbies.

In order to get this school we find an absolute minimum necessary. This minimum means the towns of Jaffrey, Troy and Marlboro. If these three towns agree to cooperate, the school is possible both from a financial point of view and from the creation of a sizable student body. The other towns in this area, if added to this minimum, will offer a still broader financial base

to support building costs, and will find, to their advantage, that they have an active voting interest, ownership, and **control** in a most desirable educational plant that will provide the best training and education for their children.

The towns of Fitzwilliam, Rindge, Harrisville, and Dublin presently send their high school students outside their towns on a tuition basis. The curriculum offered in the proposed cooperative will be at least the equal of other large schools in the area. In addition, the pupils will have full participation in extra-curricular activities. The towns will have a voice in the policy-making and operation of the cooperative, thus making for better supervision of their own children. The pupils will have the feeling of belonging to this organization rather than being "outsiders".

The cooperative plan needs much thought as your committee has been amazed at the many factors involved in a cooperation of the sort, it being entirely new to New Hampshire. However, the advantages of cooperative effort are very great and we feel they are well worth the time we have put into this study in order to bring you this report.

Fundamentally, the youth in our several towns should have an opportunity for an education that is equal to other more populated areas in this state and nation, so that in the years ahead they may be able to compete with others on an equal basis. This objective cannot be reached by the small town by itself, but it can be attained by these towns if they pool their educational resources for their mutual advantage.

Many of the details of this cooperative are yet to be worked out. For example, whether the towns should cooperate on the secondary level only, or should consolidate their entire school systems, maintaining their separate elementary units but bringing them all under one administrative unit. There are also certain legislative changes that could materially affect the situation.

Your committee feels so strongly about the educational advantages that could derive to the towns involved that it is preparing to ask for funds at your annual school district meetings in March of this year to insure the continuation of this coopera-

tive school study committee and enable it to enlist outside professional assistance, make necessary detailed building studies, make land surveys, etc., and publish the pertinent facts and figures so that each town will have the proper background information to reach a wise decision.

Are the citizens in these towns farsighted enough to see this study through to the best conclusion? The answer is up to you.

COOPERATIVE SCHOOL STUDY COMMITTEE

Jaffrey: Mr. Ernest Pratt, Mr. Vernon J. Bean, Mr. Philip Darling.

Troy: Dr. Samuel E. Paul, Mr. F. Fuller Ripley.

Marlboro: Mr. Alden J. Beauregard, Mr. Oscar Croteau.

Dublin: Mrs. Vivian Walsh, Mrs. Joseph Close.

Fitzwilliam: Miss Marcia Webber, Mrs. Jessie Bosworth.

Harrisville: Mr. William Bemis, Mrs. John J. Colony, Jr.

Rindge: Mr. Raymond Ford, Mr. John Pangborn, Mr. W. B. Coates, Jr.

BUILDING COSTS

The estimated cost as of January, 1951, of a 600 student school has been placed at \$600,000.00 which would serve Jaffrey, Troy and Marlboro; a 900 student school has been placed at \$800,000.0 which would serve the seven towns listed.

By state legislation, building costs of a cooperative school are shared by the participating districts according to equalized valuation.

The committee feels that there is public interest in a so-called Monadnock Region High School sufficient to make it a definite possibility that public spirited citizens and industries would contribute perhaps up to \$200,000.00 to bring into being a superior educational plant for the youth of the region. Therefore, two columns of cost figures are shown below, one for a \$600,000.00 capital investment by the towns and one for \$800,000.00.
